

## ***Teaching Your Staff About Nutrition Questions from Participants***

**Can we present the material you have on the website and receive credit for ourselves and our employees?**

Yes, you can use the material to train your staff and as long as you keep records it can be used for professional standards requirements.

**I have a staff of less than twenty is there a template to keep track of professional standards hours?**

The USDA provides a tool to keep track of the professional standards hours which can be found on our website under external resources. Our next webinar taking place in April 5<sup>th</sup> 2017 titled, *Using Cal-Pro-NET Resources to Meet Professional Standards* will provide information on different tools and methods for keeping track of hours.

**We use a tracking program is this enough to present to our auditor for review?**

Please contact your CNC for more information.

**May we use the Focus on Food Newsletter on our website for parents?**

Yes, you are free to do so, but we do ask that you credit the Center for Nutrition in Schools and provide a link back to our website.
